#1 IN DIESEL PARTICULATE FILTER CLEANING & SERVICE

- ◆ Our DPF Cleaning System has the ability us to focus on heavy soot areas.
- ◆ We have the capability of inspecting the filters as they are cleaned.
- ◆ Our system can handle any size filters up to 30" in diameter.
- ◆ We pick up and deliver within 50 miles.
- ◆ 1 Day turn around on basic cleaning. 24 hr turn around on a complete regeneration.
- ◆ The Regeneration Oven has multiple cycles to ensure the proper regeneration.

Wolfe Radiator Works is now a service location for **CDS (*Clean Diesel Specialists*)** with a state of the art cleaning system for diesel particulate filters. This system is manually operated, which insures a 100% clean filter. All filters are flow tested before and after cleaning to document the amount of flow increase provided by our services.

Feel free to give us a call at **(740) 454-3220** or **1-888-824-1884** for rates and additional information.

Thanks,

Steve Wolfe
